Hi (b) (4) [redacted],

Thanks for providing this additional information. We can plan to move forward without scheduling a call, but EPA will follow up with you with additional information regarding this case.

Please let me know if you have any questions.

Thanks,
Shannon

Ms. Christie,
Thanks for reaching out to us regarding testing failure # WDS07-2016-01. (b) (4) and I would be happy to discuss the case with you but I am not sure conference call is required at this point.
Let me recap our IVP failure incident.
Back in (b) (4) of 2016 we were sent a letter from the NFRC IVP stating one of our windows was selected for verification testing
In (b) (4) [redacted] was sent to the test lab for evaluation. In (b) (4) [redacted] we received a failure notice which was attributed to a IG gas leak which resulted in an unacceptable U-value. (b) (4) [redacted] We submitted an appeal to both Energy Star and the NFRC.
During the appeal process I had some discussion with our IA (b) (4) [redacted]), regarding the IVP failure /appeal. (b) (4) [redacted]

(b) (4) [redacted]

(b) (4) [redacted]

At this point I believe we have properly addressed our IVP failure issue and can move forward with the Energy Star labeling of our windows.

Please let me know your thoughts.

Hello (b) (4):

Are you available for a call with EPA on (b) (4) [redacted] between 2-4:00 pm EDT to discuss this case? Please let me know if this date/time works and I will send a calendar invite with call in information.

Thank you,

Shannon
