ACTIVITIES:

- Time: 0600-1930 hours
- Status 252/5584 structure replacement T Wayne Belvin Electric T&D projects Manager and his team met with Glover Reuben Williams PM / Whitey Pope Dom site CM / Dale Johnson DOM site PM and Mike Glagola DOM PM. The new structures will be moved back to the east an additional 10'to prevent any interference with the new structure and ash removal, after a discussion of ground conditions and working area needed for the equipment which is normally 100'x150' it will be safer and more cost effective to build a work area 50'x50' and use a 300 ton crane set up on the ASH haul road to set the structures in place.
- Glover Working in E pond removing ash in 3 locations west end, the water truck and dozers are on the haul roads as needed, dozers working in both ash lay down areas in D pond.
- Glover B pond on road trucks running today, C pond no off road trucks hauling to D pond today, dozer started building access road for the power lines structure replacement 252/5584

- B&C pond this equipment is working today water truck and street sweeper running every forty five minutes for dust suppression from C pond pole gate to D pond pole gate and back.
- Glover C pond the dewatering sump pump located near C outfall the pump will run tonight.
- Moretrench Checking wells that are in service in C&E ponds
- Moretrench will be watching the fractank pumps pumping to D pond to night.
- 68 people working in and around the ash ponds.
- 0 people orientated today.
