Subject: RE: hold for Dominion Pond Closures Design Consistency meeting
Attachments: Possum Point Dewatering Discharge Evaluation.pdf

All,

Attached is the dewatering discharge evaluation for Possum Point that we discussed during last week's meeting. We looked at three different discharge locations: Outfall 005, Outfall 004, and Outfall 001/002 and estimated allowable concentrations are proposed for each location. Documentation for development of the estimates is also provided.

Please let me know if you have any questions.

Thanks,

Ken

Possum Point Dewatering Disc...

Subject: hold for Dominion Pond Closures Design Consistency meeting
When: Thursday, April 09, 2015 11:00 AM-1:00 PM (UTC-05:00) Eastern Time (US & Canada).
Where: Innsbrook 1 - NE - A conf room

Team,

Below in red are the areas of specific discussion at the meeting this Thursday. Please be prepared to discuss them.

Thank you.

Bob Jackson

- **Review of site aerials with pond names and outfalls superimposed**
- **Review of Gantt Chart templates with major activity and outfall flows**
- **Dewatering discharge characterization (including review of Bremo analytical results if available)**
- **Low volume waste characterization**
- **Dam Safety design requirements**
- **Tree removal**
- **Construction stormwater permitting and pervious vs. impervious surface evaluations**
- **Other topics as needed**

This is a calendar hold for a meeting to discuss **Design Consistency** for the ash pond projects at Chesterfield, Possum Point, and Bremo. Meeting will be Thursday 4/9 from 1100 to 1300 hrs. Lunch to be provided. Please be advised and bring a **few** key personnel.

Details/agenda by Monday 4/6 close of business. Dominion DES may send the next detailed invitation, at which time there may be an expanded invitee list.

Chris, please bring a Geosyntec rep as you see fit.

Thanks,

Bob Jackson
