Subject: RE: Project: C150132.00 - DOM - Possum Point PS CCB Pond Closures - File Transfer - Outfall 010 Technical Memorandum

Only comment is the technical drawing only shows one plug and we're installing two, one on each end.

Not sure if we need to revise or get that specific. The narrative mentions two.

Ken,

The Technical Memorandum has been updated to incorporate your tracked changes. I also attached a pdf of the memo with accompanying figures and have eliminated the hydrologic calculations per your request.

Sincerely,

John D. DeBarbieri, P.E.

Scott,

I would like to remove the hydraulic calculations from this memo and attachments. I've also included some suggested edits to the document in the attached version.

Mike, Doug, Jason, Jeff- I'm planning to send this to DEQ under Cathy's cover letter in response to their request earlier this week to provide a description of what we are doing to stop the discharge from Outfall 010 and why we are unable to get enough samples for the chronic testing during February. Any comments would be appreciated.

Ken
