SUBJECT Dead Creek / Superfund - Immediate Action

SUMMARY OF COMMUNICATION

Brown asked who we would be planning to go after to recover our costs, saying they have some trouble with starting up an action unless we have someone to recover from.

I told her that we have been investigating possible liable generators or owners, but it has been difficult to find clearly liable parties. I said that we are continuing our investigation, but I felt very strongly that we should not let uncertaintity on this issue hold up the fence construction. I said that this part of our efforts at Dead Creek should be viewed as a legitimate emergency since school children would be on vacation in a few weeks.

She will call again after working on it some more.
