OK. Let's talk on Thursday before the 3pm call. I'm available after 11am.

Josh

Hey Josh – That sounds like a great Monday! I wish I could've been doing that.

I have meetings from 10:30 on today, so maybe we can connect on Thursday. Feel free to call if you think we should chat before. I've been talking with Alan and others here on the Riparian Rule and PCW and am working to coordinate on the WQS front, so if there are things that we should be aware of or working on other than where PCW applies, that would be useful to know. Also, Rochelle wasn't sure if Deb was following PCW so thought it might be useful for her to get some background before the meeting. No worries if that doesn't work. Talk to you at least on Thursday. - Jenny

Hi Jenny. (b) (6) I got your message. I can call into the Thursday 3-4pm standards check-in if you provide me with the number. I have to teach class until 10, but then I am available today until about 1:30. Should I call you when I get back from PSU?

Thanks,
Josh

Hey Josh – I was wondering if you were free to talk at either 1pm or 3pm today on the Riparian Rule? I'm working with Alan, Rochelle, and others on the question of where the PCW would apply in the WQS context. If you had half an hour or so, it'd be great to connect! The next few days also work for me.
