Subject: FW: Discussion on identifying hydrologically altered (HA) waters
Date: Monday, April 17, 2017 3:34:09 PM

Michele, Carol,

Joe, Marion and I plan to talk to SC Assessment folks next Monday. This is part of the meetings we are setting up with each state for the 2018 listing cycle talking to them about how they may be incorporating the 2016 IR Guidance on HA. However, the SC meeting is a bit different due to the Petition and the fact that American Rivers/SC Riverkeepers are meeting with SC on 4/27. We were invited by American Rivers to the meeting, but not by the State.

So, on Monday, we'd like to talk to the State about the issues in the petition as part of the conversation, particularly the examples provided. The State Director was copied on the petition already so the state has it. Any issue with us including the petition in the email to the state? Here's what we'd like to cover at the meeting.

Introductions

Discussion of 2016 EPA guidance on HA waters

Potential topics American Rivers/Riverkeepers will bring up during meeting

Examples from the Petition for EPA Review of South Carolina Surface Water Withdrawal, Permitting Use, and Reporting Act #attach pdf of petition.
