Please look at the language I added for "Effect of EPA Action."

I like that new option – and it really was similar to the great meeting we had with both last month. I will add that.

I will be interested to hear what CB and MW say on if we need to…CB has said that we didn't, but I also recall the MS issue…..I'll let them handle that one…

Lisa, good paper. I think we are required to respond to the petition based on a legal decision on the Mississippi River petition. Carol and Michele will have the details on that (if I'm correct).

How about a 4th option of working with the state and petitioner (and possibly other stakeholders) on this issue. I'm worried that we may not be able to get a petition response out even if we wanted to. A quiet workgroup might be another way to make progress.
