I looked at the Report database and it indicated that 90 reports had been submitted to ePermitting - all that I saw York and Lancaster Counties - all between 3/14 and 2/18/2021 Those likely double counted between the Report and ePermitting lists.

Subject: Re: New Indy complaint database

These are state-wide odor complaints, per county. The only ones related to new Indy are in York- Lancaster

Hi Elizabeth,

Just to be clear, does this information shows state-wide odor complaints specifically about New Indy, or just about odor in general?

Please let me know when you get a chance.

Thanks!

Happy Friday!
Attached are 2021 odor complaints from ePermitting (started March 1, 2021) and from our old EFIS system.
Caveats: 1-queries in ePermitting are based on the inspector's labeling of the complaint, not the complainants.
2- some of the complaints in ePermitting for Lancaster and York may be duplicative of the one in our DHEC York-Lancaster odor spreadsheet.

Denis
We can pull odor complaints from our ePermitting system starting in March 2021. There will be caveats to those numbers. For the January- Feb 28 2021 state- wide that be more problematic as the older system did not categorize on odors.
Let's see what we can do.

Liz and Scott,
I hope you both are well. I received a question about the SCDHEC complaint database you provided. It was my understanding that the database was just for the New Indy complaints and this database is not statewide, but I was not sure. So here are the questions below:
*The data we currently have are for York County and Lancaster County, can DEHC provide a broader overview of the statewide odor complaints?
*Can DEHC can provide a table showing the number of odor complaints in 2021 statewide, by county?

Let me know if you would like to schedule a call to discuss.
Best,
Denis
