TO: FRANK Pellegrini Atty / RiverPort Term & Fleeting	FROM: TOM DAGGETT SC-16	DATE 12/20/83 TIME 5P

SUBJECT
Sauget Sauget Landfill

SUMMARY OF COMMUNICATION

Riverport now owns Sauget Sauget Landfill, They lease the property to Pillsbury — and are trying to sell to them. Pellegrini & his client are very concerned with the results of our recent sampling, and want to know what will happen next.

I said EPA is very concerned with the toxic wastes found buried under the property. However, under the Superfund program, the next step is scoring the site's hazardousness, and from my experience, I don't expect it to make the National Priorities list. I said his client does have potential liability for cleanup under CERCLA — but we are not planning to take enforcement action immediately against his client. There may well be some action in the future in conjunction with the State.

CONCLUSIONS, ACTION TAKEN OR REQUIRED

He thanked me for the information. They will probably cut the land into two parcels, & try to sell the South part separate from the contaminated "panhandle" area
