Subject: USS Lead revised Final Draft RTC

Attached is a revised Final Draft USS Lead RTC document dated 2/20/2009 with EPA HQ edits (yours and Angelo's) incorporated as requested, in addition to Rob's comments and the most recent input from the Region (received 2/10/09 via email) on the RCRA deferral issue, per discussions in our conference call on 2/9/09.

All minor edits have been accepted. The text remaining in redline indicates sections where new text was introduced (primarily the Region's RCRA deferral text) or exsiting text was significantly revised to incorporate Rob's comments and the conference call discussion. These sections should be reviewed particularly closely. CSC has included our responses to all of Rob's comments in the comment boxes in the right hand margin. There are also three notes to EPA highlighted in yellow regarding outstanding issues.
