Angelo:

R5 would like to set up a call with HQ regarding the possibility of finalizing the above site on the NPL. The site was proposed back in 1992 and then was deferred to RCRA. The off-site portions of the site were referred back from RCRA to Superfund in 2004 due to the bankruptcy. RCRA recently referred additional onsite areas in 2006. As the original proposal goes back to 1992, the Region believes a site specific determination will have to be made regarding finalization or possibly reproposal. We would like to get some input from HQ before we proceed.

Please let us know when you and others in HQ might be able to talk about this.

Thanks,

Laura J. Ripley
