At the meeting, we discussed whether the public can find the HRS scores for the proposed and final sites. During the meeting, we could not identify the web page. We identified the web page.

It is the advance query under the NPL listing webpages -- http://www.epa.gov/superfund/sites/query/advquery.htm

You can search on many elements. Remember to check mark what items you want to be displayed. Below is the beginning of the screen.
