Erica - In working with Laura, we agreed to get both USS lead and Behr-Dayton in the rule, but needed to meet quick timeframes for all parties. Our deadline for USS lead is for region to get issues 1/5 and get answers to contractor so that contractor can incorporate and get first draft out to us and OGC by 1/13. For Behr-Dayton, the assignment to the region was sent 12/18 and we need to get first draft to OGC by 1/13. If we can't meet these deadlines OGC won't have enough time and we will have trouble including sites in the rule.

Erica

Happy New Year!

Please see attached file from CSC. We are on a tight schedule to be able to meet the March rule publication date. Do you think that you can respond in the next couple of days. I know that you have to interface with ORC, and everyone just came back from vacation.

Thanks
