{In Archive} FYI - April 9 Site Assessment Data Call Cancelled

Randy Hippen to: 04/03/2009 10:50 AM

Bcc: Erica Islas

Archive: This message is being viewed in an archive.

FYI - I will be unavailable next week and am cancelling the Thursday April 9, 2009 Site Assessment Data Management Workgroup conference call.

Below are 5 noteworthy items relating to site assessment data issues:

1. GPRA Final Assessment Decisions: Mid-year numbers should be pulled next week. The image below shows accomplishments through April 2.
A chart showing accomplishments through mid-year should be included in any reports package HQ sends to the regional division directors. I will plan to create
and send a copy of the chart to the SADM workgroup during the week of April 13.

I learned this week we will be stuck with an annual plan target of 400 FADs for FY09. That is 32 FADs above what HQ negotiated with the regions for this year.
We'll need to figure out what impact, if any, this will have on us. For now, we do know it will increase the FY2014 cumulative estimate for FADs presented in the
FY09-14 strategic plan from 42,155 to 42,187.

Information in eFacts: CERCLIS as of April 2, 2009; FDW as of April 2, 2009

2. The next proposed and final NPL rules will be published in the Federal Register next Thursday, April 9. HQ will plan to make associated updates in CERCLIS the night of April 9. This will include updating the only child site impacted by the rules (Iron Mountain Mill Site in Region 8 which is a child site to Flat Creek). Sites being proposed and finalized are shown below.

PROPOSED RULE #50

General Superfund Section

State	Site Name	City/County
FL	General Dynamics Longwood	Longwood
IN	Lane Street Ground Water Contamination	Elkhart
MO	Southwest Jefferson County Mining	Jefferson County
MT	Flat Creek IMM	Superior
NC	Ore Knob Mine	Ashe County
NC	GMH Electronics	Roxboro
NJ	Raritan Bay Slag	Old Bridge Township/Sayreville
NY	Gowanus Canal	Brooklyn
OH	Little Scioto River	Marion County
PA	Foster Wheeler Energy Corporation/Church Road TCE	Mountain Top
PR	Papelera Puertorriquena, Inc.	Utuado
VA	Peck Iron and Metal	Portsmouth
WI	Amcast Industrial Corporation	Cedarburg

FINAL RULE #46

Table 1: General Superfund Section

State	Site Name	City/County
FL	Raleigh Street Dump	Tampa
FL	Arkla Terra Property	Thonotosassa
IN	~~U.S. Smelter and Lead Refinery~~, Inc.	~~East Chicago~~
OH	Behr Dayton Thermal System VOC Plume	Dayton
OH	New Carlisle Landfill	New Carlisle
PA	BoRit Asbestos	Ambler
SC	Barite Hill/Nevada Goldfields	McCormick
TX	Attebury Grain Storage Facility	Happy

Table 2: Federal Facilities Section

[redacted] O.K.

State	Site Name	City/County
MD	Fort Detrick Area B Ground Water	Frederick

3. A new Superfund Alternative Agreements chart was hung in reportlink a few weeks ago. See attached PDF file. The far right column shows sites with a non-NPL status of "Superfund Alternative".
We are changing the name of this non-NPL status to "Remedial Activity Under EPA Enforcement" in CERCLIS so the reportlink report is simply using the new term.

Superfund Alternative Agreements and Regional SA Designations reportlink report 04-03-2009.pdf

4, The production version of eFacts was recently updated. You can now select a wider range of assessment actions on the detailed query screen as shown in the image below. The detailed query has become fairly robust and I encourage you to check it out if you haven't recently.
