A. 2

Dear Brad,

Thanks for taking care of my soil lead problem.

I'm writing to let you know how nice and considerate the crew of workers were, from the diggers to the restorers. They will remember my yard, as I had a few stray cats I would ~~pest~~ food out for. The cats would sit on the back steps and watch the workers, as if they were sitting in the bleachers at a baseball game. The workers just worked around them and never complained. I wish I could personally thank each one of them for their kindness to the strays.

I feel much better when my nephews come over and play in the yard, that I am not exposing them to lead in my soil.

My yard and drive-way looks great. I am well pleased with the results.

Thanks again,

Marjorie D. Johnson
