> Here is the number for the lead person for Magellan on site. This should be his cell so he should. E able to provide some information and a number for the law enforcement in Unified Command. John Frey, the OSC on site, confirmed it is the Worth County Sheriff's department on site. The sheriff is Dan Fank, their office number is 641-324-2481. John is seeing if he has another contact for the onsite incident command.

> FYI – the original NRC report came into R5 as they thought the spill was in Minnesota. Magellan regional coordinator Tristan Grover (515-971-1560) contacted the R7 spill line informing that the spill was actually in R7 Iowa. Location of the release is reportedly in the area of 390th Street and Wheelerwood Rd near Hanlontown, IA. R7 OSCs will be dispatched.
