Adam,

Have you already engaged Magellan for cost recovery? I believe this was discussed on site during the response between EPA and IDNR. From a more general response to your question, since the fund is managed by the Coast Guard you would need to contact the fund center to determine which actions would be reimbursable under a claim to the fund.

We (EPA) did open the fund for assessment for the spill, but after we determined the spill didn't appear to reach a waterway, that's when we demobilized.

Let me know if you have any questions.

Subject: Worth County Magellan Spill - OSLTF

Adam and Ken, I was asked by our field office a question concerning the OSLTF. Since the the spill did not reach a waterway will the trust fund be utilized? If so what is reimbursable for our staff on-scene?

Thanks,

Adam
