Subject:	1500 Update OPA – Magellan Hanlontown Diesel Spill
Date:	Wednesday, January 25, 2017 3:02:00 PM
Attachments:	IMG_0407.JPG

Current update for the Magellan pipeline diesel spill near the Iowa/Minnesota border. As of 1230, OSC Morrison reported that 25,000 gallons of diesel/slush mix had been recovered. Region 7 OSC Susan Fisher arrived onsite at 1430. OSC Fisher is coordinating with OSC Morrison, IDNR Carl Berg, and the onsite Unified Command between Worth County and Magellan. OSC Fisher is assessing the spill and based on her initial discussions, all of the material is being confined to the property where the spill occurred. No impacts to waterways have been identified. OSC Fisher is going to perform a site walk with onsite personnel to verify the spill is contained and no waterways have been impacted. OSC Frey is still en-route to the site. The spill is receiving media attention from local television and newspaper outlets.

Additional updates will be provided as the information is received.
