RTC_EPA Final Comments RIFS WP 12-30-16.docx
RTC_Meeting Minutes_BGW_8-18-16.docx
APPENDIX F - Soil, GW, Sed Data.pdf
BGW Work Plan Table A-5.pdf

Hi Eva,
(b) (6) The hard copy of the RI/FS Work Plan should have arrived by now, let us know if you don't have it.
Two items:

1) We found two errors in the .pdf deliverable we sent on 2/28:
-Table A-5 did not include NAPL petrophysical methods.
-Appendix F (data tables) had the last version's PRGs listed.

We've corrected those, and updated Table A-5 and Appendix F are attached. Let us know if you want a revised complete .pdf of the Appendices. The hard copies include the corrected versions.

2) We have prepared responses to EPA's collective comments on the previous version of the work plan. On the call in January, you indicated you did not need a formal response to comments. However, we ended up preparing them for our own purposes and thought it might be helpful to share it. These responses, which are in red in the attached Word documents, are on EPA's comments and associated meeting minutes regarding the upland and marine investigations, and on EPA's final comments transmitted on 12/30/16.

Let us know if you have any questions/comments on these items. We can also discuss them, along with any preliminary comments on the work plan, in our call on Wednesday. Look forward to talking to you then.

Thanks,
Jeremy
