SUBJECT: 0310960023 / Cook
Franklin Park / Liquid Waste Inc.
Superfund / PA

The subject site was inspected on 9/5/85. Currently, the site is a warehouse owned by Suitery since 1984. According to the past correspondence, Liquid Waste was a waste hauler. Obvious, the company was out of business. This information was also confirmed by a telephone conversation with Mr. Gary Rossino - Health Dept. Franklin Park. He indicated that the site was a dispatch center for trucks. Occasionally, some trucks were parked overnight. But never had any discharge or spill happen.

During the inspection, no evidence of hazardous waste was observed.
