**Subject:** Bremerton Gas Works - RI/FS scoping - meeting with stakeholders

All-
This email is a reminder for the Bremerton Gas Works Site meeting that is scheduled for next Monday, June 30th at 2 pm. The meeting will be held at Cascade Natural Gas office in Bremerton:

Cascade Natural Gas
6313 Kitsap Way
Bremerton, WA 98312

A map to the office is attached. There is room for parking in the front and side of the property. The main entrance is normally kept locked but will be opened prior to the meeting. Meeting attendees will be greeted inside and shown to the conference room.

If anyone cannot make it in person but would like to call in, we will have a speaker phone in the conference room. The call-in number and passcode is as follows:
Call-in #:

(b) (6)

Access Code:

(b) (6)

An agenda for the meeting is attached. We expect that the meeting will take about 2 hours, followed by a site visit for interested parties. Directions to the site will be handed out at the meeting. Anyone interested in attending the site visit should be aware that beach access and footing across the beach can be somewhat difficult. Sturdy footwear is recommended.

We look forward to seeing you there. If you have any questions, feel free to contact me via phone or email. My contact information is below.
Thanks,
Jeremy

All-
Thanks for your responses. It looks like the afternoon of Monday, June 30th works for almost everyone and is the date that accommodates the most people. We will have a speaker phone available and will send out a call-in number for anyone who wishes to call in rather than attend in person. The meeting will be from approximately 2 to 4 pm at Cascade Natural Gas offices in Bremerton, with an optional site visit (approximately 4-5pm) afterwards. I will also send an Outlook Meeting Invite for the meeting.

An agenda and directions to Cascade's office and the site will be sent out later this month. Feel free to contact me or the EPA project manager, Bill Ryan (206-553-8561), if you have questions in the meantime.

Thanks,
Jeremy

**Subject:** Bremerton Gas Works - RI/FS scoping - meeting with stakeholders

All-
This email is a follow-up to an email provided earlier this month by Bill Ryan, US EPA project manager for the Bremerton Gas Works Site. On behalf of Cascade Natural Gas Corporation, Cascade's environmental consultants (Aspect Consulting and AnchorQEA) are working with EPA to set up a meeting for key stakeholders. A site status update and objectives of the proposed meeting were described by EPA in the earlier email.

The purpose of this email is to identify a date for the meeting. The meeting will be held in Bremerton at Cascade's offices. We anticipate the meeting will include a site visit for those interested, and that the meeting and site visit together will take about a half-day. Specific logistics (including meeting time and directions) will be provided after a meeting date is established.

If each of you could respond to this email (please do not hit reply all) with the following information:
- Interest in attending (e.g., highly interested; may attend if available; or unlikely to attend).
- Availability for the following potential meeting date/time blocks:

June 24 morning
June 24 afternoon
June 30 morning
June 30 afternoon
July 1 morning
July 1 afternoon

Please call or email if you have any questions. Thanks!
Jeremy
