Ravi,
The East Waterway Supplemental Remedial Investigation Report has been posted to the East Waterway website. The document has been broken up into several pdfs for downloading, but we are having some trouble getting some of the files to display correctly. We will troubleshoot and get all files to post correctly on Monday. At that point, we will send an email to you and your team as well as the stakeholders you identified in your email to Susie that the document is available for their download.

The current version can be downloaded using the login information below, but it may be cleanest if you wait until after we notify you that all files are posted correctly on Monday to start downloading.
www.eastwaterwaygroup.com

The site has two levels of login credentials. Please enter the login and pass information when initially prompted:

Primary Login:
Login: EastWW
Pass: EwGr0up! ("0" is a zero)

Secondary Login:
EPA Login: EWWUser
Pass: EastWW

Thanks
Dan

Dan Berlin
