Subject: FW: Mine info

Elaine,

To best serve your needs I would like to direct you to:

Kerwin Dewberry, Coronado Forest Supervisor, 520-388-8306 or

Mindy Vogel, former Rosemont PM, 303-275-5250

They are familiar with the specific details of the project and will be able to answer your questions. Thanks

Hello Elaine, that project falls under our locatable minerals program. I have cc'd Diane Tafoya and Chad Hood who work in that part of our program and handle activity in Arizona; they will be able to answer your questions.

Diane and Chad, please see trailing email from Elaine Suriano from EPA. Thanks, LM

Liane –

Thks for your note. This relates to the Rosemont Copper Mine in AZ. The FS expects to issue a ROD within the next 30 days and a Plan of Operations under 36 CFR 228, Subpart A. However, there is not as yet no 404 permit from the COE, which is required in for a full operation this case.

The question I was asked was how much activity can take place before the 404 permit is received, but with the Approved POO.
I believe there has to be to be a bond in place before the moving of dirt. I am sure there is preparation work that can commence. I just want a picture of what can be done, pre-404 permit.

I am sure a general conversation of how the work proceeds would suffice.

I hope this gives you the necessary info.

Regards, E...
