---

Sarah,

We just received the attached letter from Tulane Law Clinic on Christmas Eve. It's regarding Coffee Creek and Mossy Lake. I wasn't sure if ADEQ was CC'd on the letter?

The letter is requesting a response from EPA. I thought I would check with you all to see if there had been any news regarding the progress of the write-up of the UAA work or a projected timeline?

Any information on the status of this work would be beneficial as we prepare for a response.

Thanks, and happy new year!

Matt
