MEETING WITH THE USEPA FEBRUARY 22, 1980
DISCUSSION OUTLINE

I. EXEMPTION FROM PSD REVIEW

WHAT CHANGES ARE PRESENTLY IN EFFECT BROUGHT ABOUT BY THE NEWLY PROPOSED PSD REGULATIONS? (ALABAMA POWER CASE)

HOW DO THESE CHANGES EFFECT SOURCES LESS THAN 250 TONS OF AIR EMISSIONS PER YEAR THAT HAVE STATE PERMITS?

II. EXAMINING THE VARIABILITY OF TURBINE AND HEATER SIZE AND TURBINE EXHAUST HEAT RECOVERY.

ARE THE RADIAN STUDIES WHICH EXAMINED VARIABILITY OF TURBINE AND HEATER SIZE AS WELL AS TURBINE EXHAUST HEAT RECOVERY INCLUDED IN THE PSD APPLICATION?

ARE THE ABOVE MENTIONED STUDIES TO BE INCLUDED IN THE TECHNICAL REVIEW AND WILL THESE STUDIES BE ADDRESSED IN THE PRELIMINARY DETERMINATION, WHICH WILL GO OUT FOR PUBLIC COMMENT?

THE PRESENT SCHEDULE CALLS FOR THE TECHNICAL SUPPORT DOCUMENT AND PRELIMINARY DETERMINATION TO BE COMPLETE BY MID MARCH 1980. BASED ON OUR LATEST CONVERSATION THIS HAS BEEN CHANGED TO ABOUT MID TO LATE MARCH 1980. IS THIS CORRECT AND HOW CAN WE ASSIST IN COMPRESSING THE SCHEDULE?
