Dear Administrator Pruitt,

As the administration looks to advance President Trump's agenda on environmental oversight, it is important to have experienced and dedicated individuals in regional appointments. Given this, I would like to recommend Patrick Davis to the position of regional director for EPA's Region 8.

Patrick Davis has gained a range of knowledge from working as a consultant, dealing with many EPA issues. I am confident that he will be an asset to the agency. As a member of the administration's "beachhead" team at EPA, Patrick has demonstrated he can work successfully to implement the Trump administration's agenda. Patrick is a team player and works hard to seamlessly interface multiple levels of government, ensuring that national policy is right for the diverse regions across America. This is a valuable trait in any regional director.

I am very confident Patrick would be a successful regional director for EPA's Region 8.

Sincerely,

Rob Bishop
