Ok, great, thanks.

I'll start looking for locations.

Thank you for your quick response. I will send out an invitation.

Let's talk over those installation aspects in the call and then decide further.

Best regards,

Ksenija

Perfect.

Let's do Thursday, May 5 from 2-3 pm EST.

Would be happy to show you an installation as well. What aspect of the installation would you like to see? A field installation takes 2 – 3 weeks between sewing, adding the field markings, and infilling the surface.

Hi Darren,

Thank you for contacting me. We are interested in setting up a call to learn more about the construction, maintenance, and operation of synthetic turf fields. We would like to understand the routine construction and maintenance practices and potential variability in these practices as related to whether fields are indoor or outdoor, or located in different geographic locations.

If having an information-sharing call works for you, we can propose the following times:

- Tuesday, May 3: 3-4pm EST
- Thursday, May 5: 1-2pm EST or 2-3 pm EST
- Monday, May 9: 2-3 pm EST or 3-4 pm EST

I would also like to check whether you would be open to showing us a field installation, in the second half of May. If so, we would look to you to propose a location, preferably close to the Washington DC area, but contingent on FieldTurf's installation schedule.

Looking forward to hearing back from you.

Best regards,

Ksenija

Subject: POC at FieldTurf

Hi Nancy,

I wanted to let you know that as our next course of action, we will be following up with Rom Reddy, Sprinturf, to schedule field visits in the near future. However, we also wanted to contact another major field installer, such as FieldTurf. Would you be able to give us a POC at FieldTurf?

Thank you and all the best,

Ksenija
