RE: Port of Seattle Lease No. 221

Dear Mr. Johnson:

In keeping with information in the Port of Seattle's letter to you of July 10, 1984, your lease for the use of Lake Washington aquatic lands will be administered by the Department of Natural Resources.

Since you have indicated a desire to renew the lease, please submit a completed application form, along with a $25.00 application fee. Unless you plan on making substantial changes in the existing lease 221, the only other item of information we will need is an exhibit for our files, in keeping with Exhibit A-1 for your current lease. See the reverse side of the application form for the exhibit standards.

All of this information should be mailed to: Marine Land Management Division, Public Lands Building - Mail Stop QW 21, Olympia, Washington, 98504, within thirty days.

I can be reached at (206) 825-1631, if you have any questions. We look forward to working with you from here on.

Sincerely,

/S/pl

Larry Sweeney
Marine Land Management
