Attention Bob Johnson

Gentlemen:

Re: Harbor Area Lease No. 221
Lake Washington

On March 8, 1984, the legislature of the State of washington adopted a new aquatic lands law which transferred management of freshwater harbor area leases from the Port to the State Department of Natural Resources. The new law will go into effect October 1, 1984.

Your harbor area lease for 942,600 square feet for log storage in Lake Washington is due for renewal on September 30, 1984. Please send written notice to the Port of whether or not you will be renewing or terminating your lease.

If you desire to renew your lease, it will be executed by the Department of Natural Resources. Your current lease with the Port along with other pertinent information will be forwarded to DNR. David Bortz of the Marine Lands Division of DNR will assist you in renewing your lease, and he can be contacted at (206)753-5324.

The Port will be working with DNR to assure an orderly transition of accounts. If you have any questions concerning this matter, please give me a call at 382-3379.

Sincerely,

Kelli Stoltenberg
