Thanks Chris. It's on my radar, but I am hoping to hear back from Curtin.

A little backstory as an FYI. This one is special – the state submitted a TMDL in 2015 for 20-some segments and 5 parameters. After its initial submission (and many negotiations), they are submitting again, asking for approval of a subset of segments and parameters without modification of the original document. FOIA exemption (b)(5) [redacted]
