Richard- attached is the site safety plan. I also attached the action memo which states what we have done. I will send a separate email with the estimates for disposal- I did send those to Freedman last Friday.

Hi Chief,

Sorry I've missed you recently. I have a couple of questions that the folks in Seattle are interested in:

- Does USCG have a site Health & Safety Plan for LST1166 that EPA can get a copy of for the next time they come out? They anticipate coming out again some in the future.
- Is there an executive summary of the USCG assessment work, "putting it all together" with levels and locations of contamination, costs for cleanup/scuttling, etc.? Would be helpful on the EPA side.

Thanks,

Richard Franklin
