Here is a rough draft. I'm trying to keep it brief but hitting all points. Please have at it as I may have missed some important things or have been off the mark in the way I characterized things. We would like to get this to Dennis before the Coast Guard Letter comes, but according to Mary and her conversation with Matt we may have a few weeks of breathing room.
Thanks for your help, everyone - this is gnarly. We'll need to think creatively.
