LEGEND

MW-1 ◉ Groundwater Monitoring Well Location and Designation and (Gauging date: April 28, 2004)

P-1 ▲ Piezometer Location and Designation

RW-2 ○ Wells Containing Separate Phase Hydrocarbon (SPH) - April 28, 2004

MW-9 ● Wells with the highest concentrations of the COPCs and Sampling Event Date

COPC Screening Level Values Used:

Benzene:	130 µg/L
Naphthalene:	240 µg/L
1,2-Dichloroethane:	28 µg/L
n-Propylbenzene:	1,600 µg/L

Estimated Extent of SPH on Groundwater

Approximate Groundwater Flow Direction - April 28, 2004

0 75 FT
APPROX. SCALE
