MEMORANDUM

TO: RCRA Part B Federal File
Operating Record

FROM: Christopher Ray

DATE: February 21, 2012

RE: Waste Minimization Certification

The purpose of this memorandum is to provide the annual waste minimization certification in accordance with Heritage's Part B federal permit, condition I.G.

Heritage Environmental Services, LLC (Heritage) has a program in place to reduce the volume and toxicity of generated hazardous wastes to the degree determined to be economically practicable. Also, the practicable methods of storage and treatment currently available to Heritage are those practicable methods that minimize, to the extent possible, the present and future threat to human health and the environment.

In 2011, Heritage performed the following specific waste minimization efforts at the Indianapolis Treatment Center:

1. Conducts operations to recover metallic mercury and cinnabar from mercury salts and mercury-contaminated wastestreams for commercial use. These wastestreams had typically been diverted to Canada for land disposal.

2. Operates a patented cyanide destruction process that does not rely on toxic reagents such as chlorine gas for waste treatment.

3. Operates high-pressure filter presses to reduce the volume of filtercake requiring subsequent stabilization and disposal.

4. Conducts and implements ongoing spill prevention, preventative maintenance, inspection and housekeeping programs to minimize environmental releases.

In summary, Heritage continues to promote an aggressive, ongoing commitment to waste minimization. Pollution prevention and waste minimization enjoy support from senior management as being essential to our long-term interests.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or

persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Certification Period: January 2011- January 2012
