EEE [redacted] Dave 1.1.2
[redacted] Jeff Villnow

PASCO mtg 3/19/85.

Doug only soil initially. take g.w. samples but only analyze if soil (+).

250 acres - total site

Grow potatoes, grape vineyard 1½ mi to East.

Irregation doesn't have major impact on gw. movement

Dairy pond near site; Snake & Columbia rivers 3 miles away.

→ Different sampling plan here - DOE won't let us drill into zones - may have prob. of not finding Dioxin.

Will be sampling for priority poll.

Depth to g.w. - 50-70', so wells will be

→ Issue - this plan looks at migration - not source. Are we better off leaving this here.

No liners

USEPA SF
1426471

Maybe we should do Alkali Lake

24D 24~~5~~ TOC, TOX

Cost - 75K
