Re: Annual Report of Hazardous Waste Exports for 2011

To Whom it May Concern:

Primary exporters of hazardous waste require submitting annual export report to the USEPA and DTSC. The information specified in §66262.56 is provided in the enclosed report.

If you have any questions regarding the enclosed information please contact myself or Sejal Choksi at (408) 998-4930.

Sincerely,

Mark TenBrink
General Manager

   Address: 3120 Camino Diablo
   Byron, CA 94514-0579

   US EPA #: CAD982523433

5. Waste Minimization Statement

Efforts Undertaken:

Xstrata Recycling has been involved in the recovery of precious metals for over 30 years. Our principle mission continues to be the acquisition of feedstock for Xstrata's Horne Division primary copper smelter, located in Rouyn-Xstrata, Quebec.

Xstrata Recycling has an active waste minimization program to reduce the amount of wastes sent to TSDF's for treatment and disposal within the United States.

No practical alternative to the use of the air pollution control equipment which generates baghouse waste has been identified.

Results Achieved:

The quantities of waste shipped by Xstrata Recycling are variable since some materials were generated off-site by third parties, and others are dependent on infrequent maintenance activities.

6. Certification

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information including the possibility of fine and imprisonment.
