John Zillich JUB Engineers

re: Pasco Landfill

they have installed 3 dedicated pumps

well heights have changed

EE-2 0.54 ft shorter than original

EE-3 0.64 ft " " "

JUB Control 5.47' below EE-1

elev. of EE-1 in original Resource Recovery report is incorrect - must be changed

- if we have a map 1" = 500' scale of site could we send a copy to JUB
- are wells sampled in the last round surveyed in - if so please send a copy to JUB
