8/22/84

City of St. Helens 503-397 3532
Mr. Pete Waldron - Water Department

Serve 3,000 units, to ≈ 7,000 population in City of St. Helens

Water is collected from 2 Ranney wells from Columbia River one 34 ft deep and one 50 ft deep
Ranney well = infiltration well on river bed
Downstream 2.5 miles on Columbia River
The two wells are ≈ 2000 ft apart

After pumping from wells → Chlorination →
distribution
reservoirs located 1 mile West of Hwy 30

May be wells in city, most likely in outlying area.
Water is tested after Chlorination - see analysis rec'd in office 8/27/84
