Hi Beth,

I didn't ask what your use of the data is but I wanted to make sure you are aware that occasionally facilities make changes to their limits after submittal of their annual data. It isn't often so this might match completely. However, it is possible that these emissions do not match what we submitted via the NEI to EPA. I could pull the data from the back end tables but I won't be able to get to that for a couple of days. Let me know if that would be useful.

Thanks,
Karla

Hi Karla,
Thank you so much for the quick response. I didn't realize that HAPs were reported separately, but those reports would be useful.

Thanks again,
Beth

Hello Beth,

Here are the 2012 reports for those facilities. If you are interested in HAPs I can pull the 2011 reports since that was the last National Emissions Inventory year.

Best Regards,
Karla

Subject: Emissions Inventory Reports

Hi Karla,

I am looking for the most recent emissions statement for the Sprague facilities in Searsport and South Portland. Would it be possible for me to get a copy of those reports?

Thank you,
Beth
