RE: Compliance Evaluation Inspection, Export Report
Tradebe Treatment and Recycling, LLC. Of Tennessee
EPA ID: TND000772186

2014

Dear Mr. Newman,

In response to the U.S. EPA Region IV request for information regarding Export Reports from Tradebe Treatment and Recycling, LLC of Tennessee (Tradebe), years encompassing 2011, 2012, 2013, and 2014; Tradebe has conducted an internal audit of Export Reports and reporting procedures. This audit was conducted by a different individual than who completed previous reports to provide a new perspective and a new pattern of data review.

Prior to conducting this second review, the Executive Vice President of Environmental Affairs, the Environmental Manager and the Environmental Specialist, discussed the steps that would be employed for this audit process, with the objective of a conducting thorough review of all information. It was through this exercise, Tradebe confirmed the errors (reported pounds) identified by the U.S. EPA existed, as well as, errors that were not identified. It is important to note even with the increase in unreported volumes the total quantities that were exported never exceeded the pounds identified in Tradebe's Letter of Intent. Tradebe respectfully apologizes for these errors and has developed corrective actions to eliminate future recurrences. Included in this submittal is amended 2011, 2012, 2013, and 2014 Export Reports.

The revised reports for the corresponding years 2011, 2012, 2013, and 2014, will address the underreported volumes found during Region IV's record review. These deficiencies were due to human error. The previous individual incorrectly transposed data he recorded on multiple spreadsheets. The errors caused the export volumes of hazardous waste to be either incorrectly tabulated or volumes not placed under the applicable DOT description, causing discrepancies in our Export Reports.

In response to Region IV record review stating that Tradebe's Export manifests were found to be lacking RCRA hazardous waste codes, Tradebe's review confirmed that wastes exported were received by Tradebe as non-RCRA hazardous waste, from generators with CESQG status or waste under the Household Hazardous Waste exclusion.

Tradebe has implemented the following revised procedures for future Export Reports, these instructions have been placed in an Export Report Standard Operating Procedure, so that anyone new will follow same exact protocols:

1. Conduct monthly review with Shipping Department personnel identifying each Export Manifest for that month.
2. As a result of the review in Item 1, the Environmental Health and Safety (EHS) department will collect copies of export manifest and maintain an independent file of hardcopies.
3. Maintain one spreadsheet containing data for each UN number reflected on the export manifests.
4. Prior to releasing the Export Report to U.S. EPA, each data field on the spreadsheet will be compared against data that is on the hard copies of the export manifests.
5. A second qualified individual from the EHS Department audit data prior to releasing an Export Report.
6. Tradebe will re-evaluate relevant Standard Operating Procedures (SOPs) before the end of February 2016, prior to the March 1, 2016 submittal.

Tradebe sincerely apologizes for these errors and has learned to improve future reporting procedures through training, SOP's, and internal audits. Please accept the revised and updated Export Reports for years corresponding to 2011, 2012, 2013, and 2104.

Thank you for your time regarding this matter and please feel free to contact me at tita.lagrimas@tradebe.com if there are any questions.

Respectfully,
Tradebe Treatment and Recycling, LLC.

Tita Lagrimas
Executive VP of Regulatory Affairs
