George and/or MaryPat:

Please let us know if the Susan briefing is delayed (and if so, then the George briefing too, I assume)

Subject: East Liverpool Public Meeting will be postponed due to medical emergency

Susan and Bharat,

We learned yesterday that the principal investigator who did the study in East Liverpool is undergoing surgery for a detached retina and will not be able to travel for at least six weeks. The meeting with the community scheduled for April 18 will be postponed due to medical emergency. The briefing for Susan, which was moved to 3:30 today, is now at the same time as the ORD briefing. I would like to suggest that since we have some additional time, we postpone the briefing for Susan so we have the benefit of knowing what happened at the ORD briefing before we meet. Please let us know how you would like us to proceed.

Carole
