Thanks Danelle. Sorry I had to bug out of the call yesterday, but I had little urchins that needed picked up. Didn't want to interrupt just to say goodbye… But it sounded like we were wrapping up the discussion anyhow.

It sure sounded like things are moving in a positive direction and the R5 folks are feeling a little better about things... Good.

I put forth the information and request to Health Commissioner Dray and her response is below.

To the both of you: I appreciate your willingness to work with Ohio's public health departments, as we will be the agencies left to address the questions and concerns LONG after Rosemarie and the U.S. EPA leave. I also very much appreciate your coordination of this project Danelle. And of course, always a pleasure working with the lovely and talented Dr. Bowler.

As you will see, we await an announcement of a 7/11 or 7/16 date… So, go ahead and start planning for a July 2013 meeting in East Liverpool.

We'll be talking soon.

Hi Greg,
Thanks for the communication. Understand and will respect knowing that of internal communication until meeting date has been confirmed by all partners, and community meeting space has been secured as well…I will honor this request. My thought is that September is pretty late, especially considering that the participants have already received their results. I'm thinking July may be more appropriate. I certainly do not have any problem moving our regularly scheduled monthly BOH meeting to either 7/11 or 7/16, to accommodate the other partners - although I'm sure a special meeting would not be called. So, let me see what I can do on my end to try and secure the 11th or 16th as a potential meeting date. Just give me a few days to work on this, okay?
As always, thanks again for your assistance and coordinated efforts to get Rosemarie's visit rescheduled. I'll be in touch. Take care.

Hello Health Commissioner Dray.
As you will read below, the e-mail is a discussion about rescheduling the SFSU – US EPA Mn health study results meetings in East Liverpool.

Yesterday I sat in on the team call and it was suggested that we reschedule the meeting(s) -- Board of Health and community -- to September 19th. I voiced concerns with the lag time and mentioned that there may be community and/or other stakeholders chomping at the bit to hear these results. Rosemarie mentioned that the study participants have already received their results. I reminded the group that there are other stakeholders besides the study participants and stated that I would talk with you about the proposed date in September to see if that worked for you or if you'd like to have something sooner.

Why September?

- May 2013: May does not work for you (health commissioner meetings) and it also does not work for Rosemarie or the US EPA.
- June 2013: The US EPA Region 5 Office (out of Chicago) asked that they have until July 2013, as they are in-process of informing their senior administrative folks and will be scheduling a meeting in June. So June does not work for the US EPA.
- July 2013: The 3rd week of July does not work for Rosemarie. **HOWEVER,** the 2nd Thursday (July 11th) or Tuesday July 16th both work (for everyone)…
- August 2013: The month of August does not work for Rosemarie.

If you'd like to have something sooner, they asked if the Board would be able to change the 3rd Thursday meeting to one of the two alternate dates listed above.

I want to make sure your voice (and your community voice) is heard. Call or contact me with any questions or concerns.

Keep in mind that this is draft and internal communication until we officially secure the space and announce the meeting.

I look forward to hearing from you so we can get things secured and finalized.

G

Hi Greg,

Thank you for being on the call today and also thank you for checking in with Jaylene about possible dates. Rosemarie indicated that for July, she would be available to come either Thursday July 11th or Tuesday, July 16th to give to option dates if the Health Board is willing to move their meeting for us to come in July.
