Subject: RE: ATSDR/Ohio/USEPA-R5 call to discuss 4/18/2013 E. Liverpool OH public meeting
Date: Friday, March 08, 2013 2:51:49 PM

There IS overlap in purpose and participants between these two calls, but their intent is separable:

1. Already-scheduled 3/12/13 call, 12:30 pm Central Time: Bowler et al. study team call to refine Marietta-Mt. Vernon-E. Liverpool data and results description, 4/18/13 Community Presentation (slides), fact sheet changes, etc.

2. Yet-to-be-scheduled call ("ATSDR/Ohio/USEPA-R5 call to discuss 4/18/2013 E. Liverpool OH public meeting") per my March 8, 2013 email below: ATSDR, OH EPA, OH Dept. of Health, USEPA staff and managers discuss (hopefully) final versions of Community Slide presentation, fact sheet, related issues. The purpose of this call is to have involved agencies discuss 4/18/13 E. Liverpool meeting communications well in advance of 4/18/13 to allow identification/resolution of potential issues.

thanks

Subject: ATSDR/Ohio/USEPA-R5 call to discuss 4/18/2013 E. Liverpool OH public meeting

As you know, preliminary results of a study ("An Epidemiologic Health Study of Manganese Exposure in Adult Residents of East Liverpool, Ohio") are planned for presentation at an April 18, 2013 East Liverpool OH public meeting.

Please let me know when you're available/not available for a conference call during the weeks of

March 11 or March 18, 2013. The purpose of the call is to discuss (and hopefully align) ATSDR, Ohio and USEPA perspectives on study results, results communication, logistical issues, etc. well in advance of the public meeting.

thanks, George B.
