This is for an air toxics compilation that MaryPat wants to give to Bharat. The fact sheet is very nice and provides a lot of useful information but too long for this purpose. I need a paragraph –SAR length, please.

Hmmm…What is this for? When do you need it? Is this "fact sheet" (http://www.epa.gov/nheerl/mnstudy/files/East_Liverpool_Factsheet.pdf) usable? let me know, thanks
