Subject: Clark Fork Site Specifics

Hi Tina;

I dug through my email archives for correspondences about the derivation of site specific nutrient criteria for the upper Clark Fork River, and I was unable to locate any emails from you/EPA regarding EPA's position on those criteria. If memory serves, I believe you called me to tell me that EPA was not real excited about them as they were only very slightly different from the regular Middle Rockies numbers anyway.

If you want me to dig further, let me know.

Mike
