**INTEROFFICE COMMUNICATION**

**TO:** John Hedges

**FROM:** M.L. Ameel

**DATE:** June 24, 1991

**SUBJECT:** Response to EPA Letter Dated 10 May 1991 (Question #11, Pages 9 & 10)

**REFERENCE:** IOC Dated June 4, 1991, M.L. Ameel to John Hedges

==========

**Question:** Did you ever transport to the facility or use, purchase, generate, store, treat, dispose, or otherwise handle at the facility any materials, either hazardous or non-hazardous? If the answer to this question is anything but an unqualified "no", identify:

**Answer:** Yes. Supplied as reference material for answers to the subquestions a. through h. are Exhibits A through G. Exhibits A, Locations and E, Suppliers are attached. Exhibits B, Chemical List; C, Chemical Usage; D, Manifests; F, Manufacturing Processes; G, SARA Reports; H, Hazardous Substances, Safety Procedures; and I, Chemical Inventory are provided as separate exhibits.

The operation at the Pacoima facilities has basically remained unchanged over the years. Information supplied on current chemical usage, manufacturing processes, etc. is representative of the past in cases for which no information (data) is available.

**Question a:** In general terms, the nature and quantity of the non-hazardous materials so transported, used, purchased, generated, stored, treated, disposed, or otherwise handled:

**Answer:** Per J. Hedges, this question on non-hazardous material does not require an answer.

**Question b:** The common chemical name, specific chemical name, Chemical Abstract Service (CAS) number, chemical composition, characteristics, and physical state

ok

350114

(e.g., solid, liquid, gas) of each hazardous material so transported, used, purchased, generated, stored, treated, disposed, or otherwise handled:

**Answer:** The information we have in answer to question b, chemical name and CAS number, is found by referencing Exhibits B, C and I.

**Question c:** The persons who supplied you with each such hazardous material or how each such hazardous material was generated by you:

ok

**Answer:** Suppliers and manufacturing processes are found in Exhibits E and F.

**Question d:** How each such hazardous material was transported, used, purchased, stored, treated, disposed, or otherwise handled by you:

How used & ~~[illegible]~~ stored

Specifically

**Answer:** Exhibits A, D, F and H can be referenced in answer to question d.

**Question e:** When each such hazardous material was transported, used, purchased, generated, stored, treated, disposed, or otherwise handled by you:

When used/stored

**Answer:** The timing for transporting, using, purchasing, etc. is dependent upon production schedules. The manifests provided in Exhibit D are records on the disposition of hazardous waste generated through the manufacturing process. The dates associated with these manifests are representative of the timing for transporting, using, purchasing, etc.

**Question f:** Where each such hazardous material was used, purchased, generated, stored, treated, disposed, or otherwise handled by you, describing the location(s) and providing a map or diagram of such location(s). Location information should include, but is not limited to, information pertaining to tanks, ponds, treatment facilities, and other units which were historically used to generate, store, treat or dispose of hazardous materials, but which may no longer exist:

where used stored

**Answer:** See Exhibit A, D and I which provide information on locations.

**Question g:** The persons who transported and/or disposed of each such hazardous material. If disposal off of the facility occurred, provide a detailed description, including copies of manifests, and

identify the location where the hazardous material was transported:

**Answer:** See Exhibit D, Manifests.

**Question h:** The annual quantity of each such hazardous material used, purchased, generated, stored, treated, transported, disposed, or otherwise handled by you, reported in gallons for liquids and pounds for solids.

specific place

**Answer:** Information on quantities can be found in Exhibits C, G and I.

## Chemical Distributors

1,1,1 Trichloroethane – RHO CHEM, Baron Blakslee
Stoddard Solvent – VWR, LT Sawyer, Holchem, OSCO
Acetone – VWR, Holchem, Chase (Now Holchem)
MEK – Holchem, McKesson, RHO CHEM
Toluene – Holchem, VWR, McKesson
Freon – Baron Blakslee, Rho Chem, VWR, Ashland
Alcohol – VWR, HOLCHEM
Alodine – AVIALL, AMCHEM
Adhesives & Sealants – K R Anderson, EV Roberts, R.S. Hughes, Wilco Assoc
Base Oil C – UNOCAL Arabian, Exxon
Hydraulic Oil – Castrol – (formerly from Berry & Castrol bought Berry)
Machine Shop Cutting oil – Topanga Oil, (Omicron & Gamma)
Lapping Compound – United States Products, &
Lapping Vehicle – John Crane Co.
Honing Oil – Sunnen Products
Loctite Sealant – R.S. Hughes Co.
Various J.T. Baker Lab Chemicals – VWR
Armstrong A-12 Adhesive = J.S. Switzer
Kool Kut Cutting oil = Union oil
Klean Kut Cutting oil = " "
Ammonia = VWR, Holchem, Hopper Inc.
Mentor 28 = Rosemead oil
Paint = Bonanik Paint, Koppers, De Soto Chemical

# MARTIN INDUSTRIAL PUMPING SERVICE

P.O. Box 1608, Canyon Country, CA 91351 • Telephone (805) 251-3737

1-29-80

## PRODUCER OF WASTE (Must be filled by producer)

Name (print or type): HYDRAULIC RESEARCH — Code No.

Pick up Address: 12137 MONTAGUE (Number) (Street) PACOIMA (City)

Telephone Number: 213 896-2441 P.O. or Contract No.:

Order Placed By: H. MANN Date: 1-29-80

Type of Process which Produced Wastes: MACHINE CLEANING — Code No.

(Examples: metal plating, equipment cleaning, oil drilling--wastewater treatment, pickling bath, petroleum refining)

## DESCRIPTION OF WASTE (Must be filled by producer)

Check type of wastes:

1. ☐ Acid solution
2. ☐ Alkaline solution
3. ☐ Pesticides
4. ☐ Paint sludge
5. ☐ Solvent
6. ☐ Tetraethyl lead sludge
7. ☐ Chemical toilet wastes
8. ☐ Tank bottom sediment
9. ☒ Oil ~~and water~~ SOLUBLE
10. ☐ Drilling mud
11. ☐ Contaminated soil and sand
12. ☐ Cannery waste
13. ☒ Latex waste
14. ☐ ~~Mud and~~ water
15. ☐ Brine

☐ Other (Specify) — Code No.

Components:
(Examples: Hydrochloric acid, lime, caustic soda, phenolics, solvents (list), metals (list), organics (list), cyanide)

| | Concentration: Upper | Lower | % | ppm |
|---|---|---|---|---|
| 1. | | | ☐ | ☐ |
| 2. | | | ☐ | ☐ |
| 3. | | | ☐ | ☐ |
| 4. | | | ☐ | ☐ |
| 5. | | | ☐ | ☐ |
| 6. | | | ☐ | ☐ |

Hazardous Properties of Waste:
pH ~6 ☐ none ☒ toxic ☐ flammable ☐ corrosive ☐ explosive

Bulk Volume: 200 ☒ gal ☐ tons ☐ barrels (42 gal) ☐ other (specify)

Containers: (Number) ☐ drums ☐ cartons ☐ bags ☐ other (specify)

Physical State: ☐ solid ☐ liquid ☐ sludge ☐ other (specify)

Special Handling Instructions (if any):

The waste is described to the best of my ability and it was delivered to a licensed liquid waste hauler (if applicable).

I certify (or declare) under penalty of perjury that the foregoing is true and correct.

Signature of authorized agent and title

## HAULER OF WASTE (Must be filled by hauler)

Name (print or type): MARTIN INDUSTRIAL PUMPING SERVICE — Code No.

Business Address: P.O. Box 1608 (Number) (Street) Canyon Country, CA 91351 (City)

Telephone Number: (805) 251-3737 Pick Up: 1-29-80 (Date) Time: ☐ am ☐ pm

State Liquid Waste Hauler's Registration No. (if applicable): 335

Job No.: 2817 No. of Loads or Trips: 1 Unit No.:

Vehicle: ☒ vacuum truck ____ barrels, ☐ flatbed, ☐ other (specify)

The described waste was hauled by me to the disposal facility named below and was accepted.

I certify (or declare) under penalty of perjury that the foregoing is true and correct.

Signature of authorized agent and title

## DISPOSER OF WASTE (Must be filled by disposer)

Name (print or type): CALCIUS — Code No.

Site Address: SOUTH

The hauler above delivered the described waste to this disposal facility and it was an acceptable material under the terms of RWQCB requirements, State Department of Health regulations, and local restrictions.

Quantity measured at site (if applicable): State fee (if any):

Handling Method(s):

☐ recovery

☐ treatment (specify): (Examples: incineration, neutralization, precipitation) — Code No.

☐ disposal (specify): ☐ pond ☐ spreading ☐ landfill ☐ injection well ☐ other (specify): — Code No.

If waste is held for disposal elsewhere specify final location:

Disposal Date:

I certify (or declare) under penalty of perjury that the foregoing is true and correct.

Signature of authorized agent and title

The site operator shall submit a legible copy of each completed Record to the State Department of Health with monthly fee reports.

1. Land disposal restrictions apply to the waste(s) listed above. If this is a final TSD facility, no further treatment, storage or disposal (except by an EPA or state permitted facility) may occur without a new manifest. If this is not a final TSD facility, storage is restricted to 90 days for waste(s) restricted under 40 CFR Part 268 Subpart C, and 1 year for waste(s) restricted under 40 CFR Part 268 Subpart D. Any exceptions to storage restrictions must be documented in the facility's files. Treatment must be performed in accordance with applicable regulations prior to disposal. The treatment and disposal facility must certify compliance with the applicable treatment standards and prohibitions set forth in 40 CFR Part 268 Subpart D for each waste listed above.

2. I certify that the materials described on this manifest are not subject to federal regulations for reporting proper disposal of hazardous waste.

3. I certify that the waste minimization statement identified in 40 CFR 262.27(a) (if I am a large quantity generator) or (b) (if I am a small quantity generator) is accurate and complete. I certify that the facility has a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment; OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.

GENERATOR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and national government regulations.

If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment; OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.

INSTRUCTIONS ON THE BACK

GENERATOR NOTIFICATION TO RHO-CHEM CORPORATION

SHIPMENT OF WASTES RESTRICTED FROM LAND DISPOSAL UNDER 40 CFR 268.7(a)(1)

This notification is submitted by HR TEXTRON to Rho-Chem Corp. in accordance with the Land Disposal Restrictions, Final Rule (effective Nov. 8, 1986) under 40 CFR 268.7(a)(1). According to this final rule, generators of EPA Hazardous Waste Nos. F001 to F005 must provide the following information with each shipment delivered to Rho-Chem Corp.:

1. EPA Hazardous Waste Number(s): F002, D001.
2. Corresponding Treatment Standard (see below).
3. Manifest number associated with this shipment 87138090.
4. Waste analysis data (attach if different from Rho-Chem qualification analysis).

CORRESPONDING TREATMENT STANDARD

INSTRUCTIONS: For each solvent waste constituent present in this waste or its extract, check the appropriate box in front of the treatment standard(s) which app

| Solvent Constituent | Treatment Standard, mg/liter (ppm) | | | |
|---|---|---|---|---|
| | Wastewaters containing spent solvents | | All other spent solvent wastes | |
| Acetone | | 0.05 | | 0.59 |

**TERMS AND CONDITIONS**

WARRANTIES: Customer expressly warrants that the information provided on the Uniform Hazardous Waste Manifest is complete and accurate.

INDEMNITY: Customer shall indemnify MARTIN INDUSTRIAL PUMPING, INC. against all losses on account of claims of injury to persons or damage to property, including attorney's fees, which may result in any way due to Customer providing incomplete or inaccurate information regarding materials being transported and/or information provided on the Uniform Hazardous Waste Manifest. Said Customer shall further be responsible for all costs incurred by MARTIN INDUSTRIAL PUMPING, INC. due to incomplete or inaccurate information provided which results in the disposal site's refusal to accept the waste for disposal. Customer assumes all liability for overweight fines levied by the State.

ATTORNEY'S FEES AND COSTS: If Customer fails to pay the total charges pursuant to the invoice or the additional terms set forth therein, and it becomes necessary to obtain the services of an attorney to collect the amount owed, then MARTIN INDUSTRIAL PUMPING, INC. shall be entitled to attorney's fees and costs in collecting said amount owed.

INTEREST ON OBLIGATION: If Customer fails to make total payment within fifteen (15) days from the date of the invoice, then MARTIN INDUSTRIAL PUMPING, INC. shall be entitled to interest at the rate of 1.5% per month on the amount owed until paid in full.

GENERATOR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and national government regulations.

If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment; OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.

INSTRUCTIONS ON THE BACK

SHIPMENT OF WASTES RESTRICTED FROM LAND DISPOSAL UNDER 40 CFR 268.7(a)(1)

This notification is submitted by HR TEXTRON to Rho-Chem Corp. in accordance with the Land Disposal Restrictions, Final Rule (effective Nov. 8, 1986) under 40 CFR 268.7(a)(1). According to this final rule, generators of EPA Hazardous Waste Nos. F001 to F005 must provide the following information with each shipment delivered to Rho-Chem Corp.:

1. EPA Hazardous Waste Number(s): F002.
2. Corresponding Treatment Standard (see below).
3. Manifest number associated with this shipment 87138071.
4. Waste analysis data (attach if different from Rho-Chem qualification analysis).

CORRESPONDING TREATMENT STANDARD

INSTRUCTIONS: For each solvent waste constituent present in this waste or its extract, check the appropriate box in front of the treatment standard(s) which apply

| Solvent Constituent | Wastewaters containing spent solvents | All other spent solvent wastes |
|---|---|---|
| Acetone | 0.05 | 0.59 |
| n-Butyl Alcohol | 5.0 | 5.0 |
| Carbon disulfide | 1.05 | 4.81 |
| Carbon tetrachloride | 0.05 | 0.96 |
| Chlorobenzene | 0.15 | 0.05 |
| Cresols and cresylic acid | 2.82 | 0.75 |
| Cyclonexanone | 0.125 | 0.75 |
| 1,2-Dichlorobenzene | 0.55 | 0.125 |
| Ethyl acetate | 0.05 | 0.75 |
| Ethyl benzene | 0.05 | 0.053 |
| Ethyl ether | 0.05 | 0.75 |
| Isobutanol | 5.0 | 5.0 |
| Methanol | 0.25 | 0.75 |
| Methylene chloride | 0.20 | 0.96 |
| Methylene chloride (from the pharamaceutical industry) | 12.7 | 0.96 |
| Methyl ethyl ketone | 0.05 | 0.75 |
| Methyl isobutyl ketone | 0.05 | 0.33 |
| Nitrobenzene | 0.66 | 0.125 |
| Pyridine | 1.12 | 0.33 |
| Tetrachloroethylene | 0.079 | 0.05 |
| Toluene | 1.12 | 0.33 |
| 1,1,1-Trichloroethane | 1.05 | X 0.41 |
| 1,1,2-Trichloro-1,2,2-trifluoroethane | 1.05 | 0.96 |
| Trichloroethylene | 0.062 | 0.091 |
| Trichlorofluoromethane | 0.05 | 0.96 |
| Xylenes | 0.05 | 0.15 |

Dilute wastewaters containing ≥1,000 mg/l and <10,000 mg/l liquid HOC's* must be treated to <1,000 mg/l°
Wastewaters that are not diluted and contain ≥1,000 mg/l liquid HOC's* must be incinerated+
Solid HOC's* ≥1,000 mg/kg must be incinerated+
*HOC's that are listed in 268 app.III
+Restriction effective 7/8/89
°If wastes are rendered non-liquid, they are no longer considered restricted wastes.

GENERATOR NOTIFICATION TO RHO-CHEM CORPORATION

REGARDING SHIPMENT OF WASTES RESTRICTED FROM LAND DISPOSAL UNDER 40 CFR 268.7(a)(1)

This notification is submitted by HR TEXTRON to Rho-Chem Corp. in accordance with the Land Disposal Restrictions, Final Rule (effective Nov. 8, 1986) under 40 CFR 268.7(a)(1). According to this final rule, generators of EPA Hazardous Waste Nos. F001 to F005 must provide the following information with each shipment delivered to Rho-Chem Corp.:

1. EPA Hazardous Waste Number(s): F002, D001.
2. Corresponding Treatment Standard (see below).
3. Manifest number associated with this shipment 87138035.
4. Waste analysis data (attach if different from Rho-Chem qualification analysis).

CORRESPONDING TREATMENT STANDARD

INSTRUCTIONS: For each solvent waste constituent present in this waste or its extract, check the appropriate box in front of the treatment standard(s) which apply

| Solvent Constituent | Wastewaters containing spent solvents | All other spent solvent wastes |
|---|---|---|
| Acetone | 0.05 | 0.59 |
| n-Butyl Alcohol | 5.0 | 5.0 |
| Carbon disulfide | 1.05 | 4.81 |
| Carbon tetrachloride | 0.05 | 0.96 |
| Chlorobenzene | 0.15 | 0.05 |
| Cresols and cresylic acid | 2.82 | 0.75 |
| Cyclohexanone | 0.125 | 0.75 |
| 1,2-Dichlorobenzene | 0.65 | 0.125 |
| Ethyl acetate | 0.05 | 0.75 |
| Ethyl benzene | 0.05 | 0.053 |
| Ethyl ether | 0.05 | 0.75 |
| Isobutanol | 5.0 | 5.0 |
| Methanol | 0.25 | 0.75 |
| Methylene chloride | 0.20 | 0.96 |
| Methylene chloride (from the pharamaceutical industry) | 12.7 | 0.96 |
| Methyl ethyl ketone | 0.05 | 0.75 |
| Methyl isobutyl ketone | 0.05 | 0.33 |
| Nitrobenzene | 0.66 | 0.125 |
| Pyridine | 1.12 | 0.33 |
| Tetrachloroethylene | 0.079 | 0.05 |
| Toluene | 1.12 | 0.33 |
| 1,1,1 Trichloroethane | 1.05 | X 0.41 |
| 1,1,2-Trichloro-1,2,2-trifluoroethane | 1.05 | X 0.96 |
| Trichloroethylene | 0.062 | 0.091 |
| Trichlorofluromethane | 0.05 | 0.96 |
| Xylenes | 0.05 | 0.15 |

Dilute wastewaters containing ≥1,000 mg/l and <10,000 mg/l liquid HOC's* must be treated to <1,000 mg/l°
Wastewaters that are not diluted and contain ≥1,000 mg/l liquid HOC's* must be incinerated+
Solid HOC's* ≥1,000 mg/kg must be incinerated+

*HOC's that are listed in 268 app.III
+Restriction effective 7/8/89
°If wastes are rendered non-liquid, they are no longer considered restricted wastes.

16. GENERATOR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and national government regulations.

If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment; OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me.

This notification is submitted by HR TEXTRON to **Rho-Chem Corp.** in accordance with the Land Disposal Restrictions, Final Rule (effective Nov. 8, 1986) under 40 CFR 268.7(a)(1). According to this final rule, generators of EPA Hazardous Waste Numbers F001 to F005 (list definition on backside) must provide the following information:

1. EPA Hazardous Waste Number(s): D001
2. Corresponding Treatment Standard (see below).
3. Manifest number associated with this shipment: 88377273
4. Waste analysis data.

## CORRESPONDING TREATMENT STANDARD

Instructions:

For each solvent waste constituent present in this waste or its extract, check the appropriate box in front of the treatment standard(s) which apply.

| Solvent Constituent | Treatment Standard (mg/liter) | |
|---|---|---|
| | Wastewaters containing spent solvents | All other spent solvent wastes |
| Acetone | 0.05 | 0.59 |
| n-Butyl alconol | 5.0 | 5.0 |
| Carbon disulfide | 1.05 | 4.81 |
| Carbon tetrachloride | 0.05 | 0.96 |
| Chlorobenzene | 0.15 | 0.05 |
| Cresols and cresylic acid | 2.82 | 0.75 |
| Cyclohexanone | 0.125 | 0.75 |
| 1,2-Dichlorobenzene | 0.65 | 0.125 |
| Ethyl acetate | 0.05 | 0.75 |
| Ethyl benzene | 0.05 | 0.053 |
| Ethyl ether | 0.05 | 0.75 |
| Isobutanol | 5.0 | 5.0 |
| Methanol | 0.25 | 0.75 |
| Methylene chloride | 0.20 | 0.96 |
| Methylene chloride (from the pharmaceutical industry | 12.7 | 0.96 |
| Methyl ethyl ketone | 0.05 | 0.75 |
| Methyl isobutyl ketone | 0.05 | 0.33 |
| Nitrobenzene | 0.66 | 0.125 |
| Pyridine | 1.12 | 0.33 |
| Tetrachloroethylene | 0.079 | 0.05 |
| Toluene | 1.12 | 0.33 |
| 1,1,1-Trichloroethane | 1.05 | 0.41 |
| 1,1,2-Trichloro - 1,2,2-trifluoroethane | 1.05 | 0.96 |

# PATCHEM LABORATORIES

2205 First St. #108 • Simi Valley, CA 93065 • (805) 581-9006

Customer: Martin Industrial Pumping
P.O. Box 1128
Canyon Country, CA 91351

Attention: Mr. Darron Stankey

Sample Date: 3-13-89

Report Date: 3-14-89

Sample I.D.: 8903-1110

Subject: HR Textron - Nitric, Sodium Dichromate Sample

Method: Sample was analyzed per EPA Methods for Chemical Analysis of Water and Waste (EPA-600/4-79-020), and EPA Test Methods for Evaluating Solid Waste, Physical/Chemical Methods (SW-846).

Results:

| PARAMETER | EPA METHOD | DETECTION LIMIT | ANALYSIS |
|---|---|---|---|
| Barium | 7080 | 0.1 mg/L | Not Found |
| Cadmium | 7130 | 0.02 mg/L | 1.10 mg/L |
| Chromium | 7190 | 0.05 mg/L | 14,650 mg/L |
| Cobalt | 7200 | 0.03 mg/L | 2.15 mg/L |
| Copper | 7290 | 0.02 mg/L | 73.0 mg/L |
| Lead | 7380 | 0.02 mg/L | 0.35 mg/L |
| Nickel | 7520 | 0.02 mg/L | 830.0 mg/L |
| Silver | 7760 | 0.02 mg/L | Not Found |
| Thallium | 7840 | 0.1 mg/L | Not Found |
| Arsenic | 206.4 | 0.1 mg/L | Not Found |
| Selenium | 270.1 | 0.1 mg/L | Not Found |
| Zinc | 7950 | 0.02 mg/L | 75.0 mg/L |
| Cyanide | 9010 | 0.02 mg/L | Not Found |
| Volatie Organics | -- | 0.05 %/vol | Not Found |

Comments: Compounds listed as not found would have been reported if present at or above detection limits. Sample was prepared per Method 3010 of SW-846.

Respectfully Submitted,

Pat Brueckner
Chemist

## CUSTOMER NOTIFICATION AND CERTIFICATION

Only Statements with Original Signature will be Accepted

Generator Name/Location: H.R. TEXTRON, 10445 Glen Oaks Blvd., Pacoima, CA 91331

EPA I.D. Number: CAD041162330

Waste Profile or ARF Number: _____

Manifest Number: 90284100

EPA Hazardous Waste Code Number(s): D001, F003, F005

Waste Analysis Available? YES _____ NO X If yes, please specify profile # _____

☐ **Unrestricted Waste Notification (Category 1)**
I notify that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this notification that the waste is not restricted as specified in 40 CFR 268, Subpart D and all applicable prohibitions set forth in 40 CFR 268.32 or RCRA Section 3004(d).

☒ **Restricted Waste Notification (Category 2)**
I notify that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this notification that the waste does not comply with the treatment standards specified in 40 CFR 268, Subpart D. Waste must be treated by the appropriate regulatory treatment standard or in such a manner which renders it non-liquid by chemical fixation or solidification prior to land disposal.
Corresponding treatment standard: See attached

☐ **Restricted Waste Variance Certification/Notification (Category 3)**
I notify pursuant to 40 CFR 268.7(a)(3) and certify under penalty of law that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification that the waste complies with the treatment standards specified in 40 CFR Part 268, Subpart D and all applicable prohibitions set forth in 40 CFR 268.32 or RCRA Section 3004(d). I believe that the information I submitted is true, accurate, and complete. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.
Applicable variance: _____

☐ **Treated Waste Certification (Category 4)** (Also mark either 4a and/or 4b below)

☐ **(4a)** I certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification and that, based on my inquiry of those individuals immediately responsible for obtaining this information, I believe that the treatment process has been operated and maintained properly so as to comply with the performance levels specified in 40 CFR Part 268, Subpart D, and all applicable prohibitions set forth in 40 CFR 268.32 or RCRA Section 3004(d) without impermissible dilution of the prohibited waste. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.

☐ **(4b)** I certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification and that, based on my inquiry of those individuals immediately responsible for obtaining this information, I believe that the nonwastewater organic constituents have been treated by incineration in units operated in accordance with 40 CFR Part 264, Subpart O or Part 265, Subpart O, or by combustion in fuel substitution units operating in accordance with applicable technical requirements, and I have been unable to detect the nonwastewater organic constituents despite having used best good faith efforts to analyze for such constituents. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.

☐ **Restricted Waste Notification (Category 5)**
I notify that I have personally examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this notification that the waste does comply with the treatment standards specified in 40 CFR 268, Subpart D.

## LAB PACK CERTIFICATION

☐ **Category 6 - Lab Pack Certification** (Also mark either 6a and/or 6b below)

☐ **(6a) Organometallic** (inorganic)
I certify under penalty of law that I personally have examined and am familiar with the waste and that the lab pack contains only the wastes specified in Appendix IV to 40 CFR Part 268 or solid wastes not subject to regulation under 40 CFR Part 261. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine or imprisonment.

☒ **(6b) Organic**
I certify under penalty of law that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste and that the lab pack contains only organic waste specified in Appendix V to 40 CFR Part 268 or solid wastes not subject to regulation under 40 CFR Part 261. I am aware that there are significant penalties for submitting a false certification, including possibility of fine or imprisonment.

**Rho-Chem Corp.**
425 Isis Avenue, Inglewood, CA 90301
Phone: (213) 776-6233 • FAX: (213) 645-6379

This notification is submitted by HR TEXTRON to **Rho-Chem Corp.** in accordance with the Land Disposal Restrictions, Final Rule (effective Nov. 8, 1986) under 40 CFR 268.7(a)(1). According to this final rule, generators of EPA Hazardous Waste Numbers F001 to F005 (list definition on backside) must provide the following information:

1. EPA Hazardous Waste Number(s): F001
2. Corresponding Treatment Standard (see below).
3. Manifest number associated with this shipment: 88377220
4. Waste analysis data.

## CORRESPONDING TREATMENT STANDARD

Instructions:

For each solvent waste constituent present in this waste or its extract, check the appropriate box in front of the treatment standard(s) which apply.

| Solvent Constituent | | Treatment Standard (mg/liter) Wastewaters containing spent solvents | | All other spent solvent wastes |
|---|---|---|---|---|
| Acetone | | 0.05 | | 0.59 |
| n-Butyl alcohol | | 5.0 | | 5.0 |
| Carbon disulfide | | 1.05 | | 4.81 |
| Carbon tetrachloride | | 0.05 | | 0.96 |
| Chlorobenzene | | 0.15 | | 0.05 |
| Cresols and cresylic acid | | 2.82 | | 0.75 |
| Cyclohexanone | | 0.125 | | 0.75 |
| 1,2-Dichlorobenzene | | 0.65 | | 0.125 |
| Ethyl acetate | | 0.05 | | 0.75 |
| Ethyl benzene | | 0.05 | | 0.053 |
| Ethyl ether | | 0.05 | | 0.75 |
| Isobutanol | | 5.0 | | 5.0 |
| Methanol | | 0.25 | | 0.75 |
| Methylene chloride | | 0.20 | | 0.96 |
| Methylene chloride (from the pharmaceutical industry | | 12.7 | | 0.96 |

# NORRIS Environmental Services

# *CERTIFICATE OF TREATMENT*

*Issued To*

**HR TEXTRON**

**Date(s) Received** *01-17-91* **Manifest Number(s)** *88377166*

## THIS CERTIFIES THAT:

*THE WASTE RECEIVED ON THE ABOVE MANIFEST WAS PROCESSED THROUGH NORRIS ENVIRONMENTAL SERVICE TREATMENT SYSTEM. THE NORRIS ENVIRONMENTAL SERVICE TREATMENT SYSTEM DETOXIFIED THE WASTE, AND CONVERTED THE RESIDUE INTO A RECYCLABLE MATERIAL. THESE STEPS WERE CARRIED OUT IN FULL ACCORDANCE WITH FEDERAL, STATE, AND LOCAL ENVIRONMENTAL REQUIREMENTS.*

*THIS PROCESSING OF THE WASTE BY NORRIS ENVIRONMENTAL SERVICE TREATMENT SYSTEM COMPLETES ALL OF THE CERTIFICATE HOLDER'S RESPONSIBILITIES UNDER THE UNITED STATES RESOURCE CONSERVATION AND RECOVERY ACT AND THE CALIFORNIA HAZARDOUS WASTE CONTROL ACT.*

# Certificate of Treatment/Recycling

ISSUED TO

HR Textron

FOR

MANIFEST NUMBER 88377165 DATE RECEIVED 1-21-91

*The aqueous waste received on the above manifest will be treated to standards mandated by the FEDERAL CLEAN WATER ACT and to effluent requirements established by the Sanitation Districts of Los Angeles County. Waste treatment and recycling is performed under permits granted to DeMENNO/KERDOON, a California corporation, by the California Department of Health Services, in coordination with the Environmental Protection Agency, in accordance with the provisions of the Resource Conservation and Recovery Act (RCRA) of 1976, together with applicable federal and state regulations including but not limited to waste discharge requirements established by the Sanitation Districts of Los Angeles County.*

*When the above described waste material is accepted by DeMENNO/KERDOON and treated/recycled and the aqueous phase discharged for further treatment by the Sanitation Districts, the certificate holder's responsibility for the waste material is eliminated under both RCRA and Proposition 65. Upon request, DeMENNO/KERDOON will issue this certificate that all waste material has been handled in accordance with applicable permits and the certificate holder's liability has been terminated.*

**GENERATOR'S CERTIFICATION:** I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and national government regulations.

If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment; OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.

# Certificate of Treatment/Recycling

ISSUED TO

H R Textron

FOR

MANIFEST NUMBER 8837758 DATE RECEIVED 2/25/91

*The aqueous waste received on the above manifest will be treated to standards mandated by the FEDERAL CLEAN WATER ACT and to effluent requirements established by the Sanitation Districts of Los Angeles County. Waste treatment and recycling is performed under permits granted to DeMENNO/KERDOON, a California corporation, by the California Department of Health Services, in coordination with the Environmental Protection Agency, in accordance with the provisions of the Resource Conservation and Recovery Act (RCRA) of 1976, together with applicable federal and state regulations including but not limited to waste discharge requirements established by the Sanitation Districts of Los Angeles County.*

*When the above described waste material is accepted by DeMENNO/KERDOON and treated/recycled and the aqueous phase discharged for further treatment by the Sanitation Districts, the certificate holder's responsibility for the waste material is eliminated under both RCRA and Proposition 65. Upon request, DeMENNO/KERDOON will issue this certificate that all waste material has been handled in accordance with applicable permits and the certificate holder's liability has been terminated.*

# Certificate of Treatment/Recycling

ISSUED TO

H. R. Pentheon

FOR

MANIFEST NUMBER 885776 DATE RECEIVED 3/21/91

*The aqueous waste received on the above manifest will be treated to standards mandated by the FEDERAL CLEAN WATER ACT and to effluent requirements established by the Sanitation Districts of Los Angeles County. Waste treatment and recycling is performed under permits granted to DeMENNO/KERDOON, a California corporation, by the California Department of Health Services, in coordination with the Environmental Protection Agency, in accordance with the provisions of the Resource Conservation and Recovery Act (RCRA) of 1976, together with applicable federal and state regulations including but not limited to waste discharge requirements established by the Sanitation Districts of Los Angeles County.*

*When the above described waste material is accepted by DeMENNO/KERDOON and treated/recycled and the aqueous phase discharged for further treatment by the Sanitation Districts, the certificate holder's responsibility for the waste material is eliminated under both RCRA and Proposition 65. Upon request, DeMENNO/KERDOON will issue this certificate that all waste material has been handled in accordance with applicable permits and the certificate holder's liability has been terminated.*

## CALIFORNIA LAND DISPOSAL RESTRICTION NOTIFICATION

**PART I: Generator Information.**

GENERATOR NAME HR TEKTRON

~~CAT000604193~~ CAD041162330 | 9042443 2 | 2908

EPA ID # | MANIFEST # | PROFILE #

The waste(s) identified on the above referenced manifest and bearing the California waste number(s) identified below is subject to the Land Disposal Restrictions of CCR, Title 22, Chapter 30.

**PART II: Waste Identification.**

California waste number(s) 211 23 T

Check the appropriate lines. (More than one line may apply.)

X 1. RCRA regulated waste

____ 2. Non-RCRA metal-containing aqueous waste identified on CCR, Title 22, 67702(b) (1).

____ 3. PCB wastes identified in CCR, Title 22, 67702(b) (2). (Not acceptable at APTEC)

____ 4. Non-RCRA metal-containing solid waste identified in CCR, Title 22, 67702(b) (7). Prohibition effective date May 8, 1992.

____ 5. Non-RCRA aqueous and liquid waste containing any organic compound identified by EPA Test Methods 8080, 8140, 8150, 8240, and/or 8270. Prohibition effective date May 8, 1992. (Reference CCR, Title 22, 67702 (b)(10).)

____ 6. Non-RCRA solid waste containing any organic compound identified by EPA Test Methods 8080, 8140, 8150, 8240, and/or 8270. Prohibition effective date May 8, 1992. (Reference CCR, Title 22, 67702 (b)(11).)

____ 7. Other Non-RCRA, California regulated waste, category includes lab packs, California extremely small quantity generators, and household hazardous waste exempted in the Health and Safety Code Section 25179.9.

**PART III: Handling Method.**

Check the appropriate lines. (More than one line may apply.)

X 1. The RCRA waste identified above must be handled in accordance with the attached EPA LAND DISPOSAL RESTRICTION NOTIFICATION.

____ 2. The waste identified above must be treated to meet the applicable standards in CCR, Title 22, Division 4, Chapter 30, Article 41.

____ 3. The waste identified above meets the applicable treatment standard.
"I certify under penalty of law that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification that the waste complies with the treatment standards specified in CCR Title 22, Division 4, Chapter 30, Article 41. I believe that the information I submitted is true, accurate, and complete. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment."

____ 4. The waste identified above is subject to a variance. The expiration date of the variance is indicated in the WASTE IDENTIFICATION section above.

____ 5. The Non-RCRA waste identified above is not currently restricted from land disposal.

**PART IV: Generator Certification.**

I hereby certify that all information supplied above and on all associated documents is true, complete and accurate to the best of my knowledge and that no omissions or errors exist.

Signature [signature] Date: 4-8-91

Print or Type Name: CHUCK YOUNGBLOOD

Title: HAZ. WASTE COORD.

ATTACHMENT I
ADDITIONAL NOTIFICATION FOR F001-F005, AND CALIFORNIA LIST WASTES

# ATTACHMENT II
# EXTENSIONS, VARIANCES, EXCEPTIONS

**For Part II, Line B-6 of the Notification Form** This waste is (check one):

_____ A. Soil or debris contaminated with waste specified in 268.34 for which the treatment standard is based on incineration per Attachment III variance valid until June 8, 1991.

_____ B. Soil or debris contaminated with wastes specified in 268.35 for which the treatment standard is based on incineration, mercury retorting, vitrification or wet-air oxidation, per Attachment III (variance valid until May 8, 1992).

_____ C. A waste specified in 268.35 (a) — per Attachment III ____NWW____WW

_____ D. A waste specified in 268.35 (c) — per Attachment III — (variance valid until May 8, 1992) ____NWW____WW.
**NOTE:** NWW = Nonwastewater and WW = Wastewater.

**For Part II, Line B-8 of the Notification Form.** This waste is:

_____ E. Subject to a case-by-case extension, pursuant to 40 CFR 268.5, granted by_____on_____
(attach copy)

_____ F. Subject to a treatability variance, pursuant to 40 CFR 268.44, granted by_____on_____
(attach copy)

**For generators or treaters who have checked Part II, Line B-9 of the Notification Form:**

**Instructions:** Check Line 1, 2, or 3 below. If checking Line 1 or 2 below, attach supporting analytical results. If checking Line 2, and if appropriate, also check Line 4. Sign and date below.

1. **For generators** who have determined that their waste meets treatment standards (268.7(a)(2)(ii):

_____I certify under penalty of law that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification that the waste complies with the treatment standards specified in 40 CFR Part 268 Subpart D and all applicable prohibitions set forth in 40 CFR 268.32 or RCRA section 3004(d). I believe that the information I submitted is true, accurate and complete. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment.

2. **For treatment facilities** which have treated the waste so that it meets the required numerical treatment standards (268.7(b)(5)(i):

_____I certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification and that, based on my inquiry of those individuals immediately responsible for obtaining this information. I believe that the treatment process has been operated and maintained properly so as to comply with the performance levels specified in 40 CFR Part 268 Subpart D and all applicable prohibitions set forth in 40 CFR 268.32 or RCRA section 3004(d) without impermissible dilution of the prohibited waste. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.

If the certification in Line 2 above is based in whole or part on the "analytical detection limit alternative" (268.3(c), check the following certification.

_____I certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification and that, based on my inquiry of those individuals immediately responsible for obtaining this information, I believe that the nonwastewater (NWW) organic constituents have been treated by incineration in units operated in accordance with 40 CFR Part 264 Subpart 0 or Part 265 Subpart 0, or by combustion in fuel substitution units operating in accordance with applicable technical requirements, and I have been unable to detect the nonwastewater organic constituents despite having used best good faith efforts to analyze for such constituents. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.

3. **For treatment facilities** which have treated the waste with the required treatment technology specified in 268.42 (certification per 268.7(b)(5)(ii):

_____I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 268.42. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.

Print or Type Name CHUCK YOUNGTOWN

Title: HAZ. WASTE COORD.

... Line B-8 of the Notification Form This waste is (check one):

_____ A. Soil or debris contaminated with waste specified in 268.34 for which the treatment standard is based on incineration per Attachment III variance valid until June 8, 1991.

_____ B. Soil or debris contaminated with wastes specified in 268.35 for which the treatment standard is based on incineration, mercury retorting, vitrification or wet-air oxidation, per Attachment III (variance valid until May 8, 1992).

_____ C. A waste specified in 268.35 (a) — per Attachment III ____NWW____WW

_____ D. A waste specified in 268.35 (c) — per Attachment III — (variance valid until May 8, 1992) ____NWW____WW.
NOTE: NWW = Nonwastewater and WW = Wastewater.

**For Part II, Line B-8 of the Notification Form.** This waste is:

_____ E. Subject to a case-by-case extension, pursuant to 40 CFR 268.5, granted by_____on_____
(attach copy)

_____ F. Subject to a treatability variance, pursuant to 40 CFR 268.44, granted by_____on_____
(attach copy)

**For generators or treaters who have checked Part II, Line B-9 of the Notification Form:**

**Instructions:** Check Line 1, 2, or 3 below. If checking Line 1 or 2 below, attach supporting analytical results. If checking Line 2, and if appropriate, also check Line 4. Sign and date below.

1. For generators who have determined that their waste meets treatment standards (268.7(a)(2)(ii):

_____I certify under penalty of law that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification that the waste complies with the treatment standards specified in 40 CFR Part 268 Subpart D and all applicable prohibitions set forth in 40 CFR 268.32 or RCRA section 3004(d). I believe that the information I submitted is true, accurate and complete. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment.

2. For treatment facilities which have treated the waste so that it meets the required numerical treatment standards (268.7(b)(5)(i):

_____I certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification and that, based on my inquiry of those individuals immediately responsible for obtaining this information. I believe that the treatment process has been operated and maintained properly so as to comply with the performance levels specified in 40 CFR Part 268 Subpart D and all applicable prohibitions set forth in 40 CFR 268.32 or RCRA section 3004(d) without impermissible dilution of the prohibited waste. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.

If the certification in Line 2 above is based in whole or part on the "analytical detection limit alternative" (268.3(c), check the following certification.

_____I certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification and that, based on my inquiry of those individuals immediately responsible for obtaining this information, I believe that the nonwastewater (NWW) organic constituents have been treated by incineration in units operated in accordance with 40 CFR Part 264 Subpart 0 or Part 265 Subpart 0, or by combustion in fuel substitution units operating in accordance with applicable technical requirements, and I have been unable to detect the nonwastewater organic constituents despite having used best good faith efforts to analyze for such constituents. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.

3. For treatment facilities which have treated the waste with the required treatment technology specified in 268.42 (certification per 268.7(b)(5)(ii):

_____I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 268.42. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.

**GENERATOR'S CERTIFICATION:** I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and national government regulations.

If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment; OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.

## RESTRICTED WASTE NOTIFICATION and CERTIFICATION FORM

This document is submitted to Rho-Chem Corporation in compliance with 40 CFR 268.7. The information provided within this document is based upon the land disposal restrictions and prohibitions under 40 CFR 268.

### I. SHIPMENT INFORMATION

GENERATOR NAME: HR TEXTRON RHO-CHEM PROFILE # 4242

EPA ID NO.: CAD041162330 MANIFEST/LINE NO. 90119803

1. Is the waste generated by a Conditionally Exempt Small Quantity Generator as defined by 40 CFR 261.5 (40 CFR 268.1 (c) (4))? Yes ☐ No ☒
   If yes, proceed to section III(E).
2. Is this waste a Wastewater or Non-Wastewater (40CFR 268.2)?
   Wastewater (WW) ☐ Non-Wastewater (NWW) ☒
3. Is the waste a F001-F005 Spent Solvent?
   Yes (check applicable constituents within Table 1) ☐ No ☒

**TABLE I**

## III. RESTRICTIONS AND CERTIFICATION

Please identify the following sections that apply to this waste stream by placing a ☒ or ☑ in the appropriate box.

☒ A. **RESTRICTED WASTE EXCEEDS TREATMENT STANDARDS OR PROHIBITION LEVELS** (40 CFR 268.7(a) (1))

The restricted waste identified above must be treated to meet the applicable 40 CFR 268 Subpart D treatment standards or treated to comply with applicable prohibitions setforth in Part 268.32 or RCRA 3004(d). I have indicated the corresponding treatment standard(s) or prohibitions in this document and have attached all supporting data where available.

☐ B. **RESTRICTED WASTE TREATED TO MEET TREATMENT STANDARDS OR PROHIBITION LEVELS** (40 CFR 268.7 (b) (5) (i))

"I certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification and that based on my inquiry of those individuals immediately responsible for obtaining this information. I believe that the treatment process has been operated and maintained properly so as to comply with the performance levels specified in 40 CFR Part 268, Subpart D, and all applicable prohibitions set forth in 40 CFR 268.32 or RCRA Section 3004(d) without impermissible dilution of the prohibited waste. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine or imprisonment."

☐ C. **RESTRICTED WASTE MEETS TREATMENT STANDARDS OR PROHIBITION LEVELS WITHOUT TREATMENT** (40 CFR 268.7 (a) (2))

"I certify under penalty of law that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification that the waste complies with the treatment standards specified in 40 CFR Part 268 Subpart D and all applicable prohibitions set forth in 40 CFR 268.32 or RCRA 3004(d). I believe that the information I submitted is true, accurate, and complete. I am aware there are significant penalties for submitting a false certification, including the possibility of fine or imprisonment."

☐ D. **RESTRICTED WASTE TREATED TO MEET A TREATMENT STANDARD EXPRESSED AS A TECHNOLOGY** (40 CFR 268.7(b) (5) (ii))

"I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 268.42. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment."

☐ E. **RESTRICTED WASTE SUBJECT TO A VARIANCE**

This waste is subject to a national capacity variance, a treatability variance, or a case-by-case extension. The date the waste is subject to the prohibition is _____.

## IV. GENERATOR CERTIFICATION

I hereby certify that all information provided in this and all associated documents is complete and accurate to the best of my knowledge and ability to determine. All waste analysis data, if available, has been previously submitted or is attached.

## III. RESTRICTIONS AND CERTIFICATION

Please identify the following sections that apply to this waste stream by placing a ☒ or ☑ in the appropriate box.

☐ A. **RESTRICTED WASTE EXCEEDS TREATMENT STANDARDS OR PROHIBITION LEVELS** (40 CFR 268.7(a) (1))

The restricted waste identified above must be treated to meet the applicable 40 CFR 268 Subpart D treatment standards or treated to comply with applicable prohibitions setforth in Part 268.32 or RCRA 3004(d). I have indicated the corresponding treatment standard(s) or prohibitions in this document and have attached all supporting data where available.

☐ B. **RESTRICTED WASTE TREATED TO MEET TREATMENT STANDARDS OR PROHIBITION LEVELS** (40 CFR 268.7 (b) (5) (i))

"I certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification and that based on my inquiry of those individuals immediately responsible for obtaining this information, I believe that the treatment process has been operated and maintained properly so as to comply with the performance levels specified in 40 CFR Part 268, Subpart D, and all applicable prohibitions set forth in 40 CFR 268.32 or RCRA Section 3004(d) without impermissible dilution of the prohibited waste. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine or imprisonment."

☐ C. **RESTRICTED WASTE MEETS TREATMENT STANDARDS OR PROHIBITION LEVELS WITHOUT TREATMENT** (40 CFR 268.7 (a) (2))

"I certify under penalty of law that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification that the waste complies with the treatment standards specified in 40 CFR Part 268 Subpart D and all applicable prohibitions set forth in 40 CFR 268.32 or RCRA 3004(d). I believe that the information I submitted is true, accurate, and complete. I am aware there are significant penalties for submitting a false certification, including the possibility of fine or imprisonment."

☐ D. **RESTRICTED WASTE TREATED TO MEET A TREATMENT STANDARD EXPRESSED AS A TECHNOLOGY** (40 CFR 268.7(b) (5) (ii))

"I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 268.42. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment."

☐ E. **RESTRICTED WASTE SUBJECT TO A VARIANCE**

This waste is subject to a national capacity variance, a treatability variance, or a case-by-case extension. The date the waste is subject to the prohibition is _____.

## IV. GENERATOR CERTIFICATION

I hereby certify that all information provided in this and all associated documents is complete and accurate to the best of my knowledge and ability to determine. All waste analysis data, if available, has been previously submitted or is attached.
