Subject: AEC Bennoc proposed permit discussion

Eric, Dan, Paul,

EPA is hereby providing OEPA with a summary of issues regarding the October 8, 2013 AEC Bennoc proposed permit prior to the conference call tomorrow, December 12, 2013 at 1pm central time.

In preparing a specific objection letter, EPA is evaluating the extent to which effluent limitations for dissolved solids and sulfates are necessary to achieve water quality standards in the unnamed tributaries and in Piney Creek; and the extent to which additional dissolved solids limitations are necessary in light of the set-aside provisions at OAC 3745-1-05(C)(6) pertaining to Outstanding State Resource Waters (Captina Creek).

Thanks much,

Janet Pellegrini, Environmental Scientist
