FYI. The time for the call is now 3:30 CST (4:30 EST) tomorrow afternoon. It was the only time that both Diane and Ralph could make it. Ralph is going to try to tie in. I will send the call in number tomorrow morning. Have a great evening. Nola

Thanks. Sorry about not being more flexible, but I was already pushing it with 4:30

Ok. We'll leave it at 4:30 pm. Ralph is going to make best efforts to participate.

Diane: To be on the safe side we would like to move it (for the last time) to 5pm. That will give Ralph sufficient time to complete his obligations for the day. I will send out the call in number prior to the call. Thank you. Nola _____

Just confirmed with my guy, 4:30 is ok with him too. Apparently he spoke to the local EPA guy yesterday about the progress. The private company has been in and started their work.

Thursday at 2:30 pm EST works for me. I am now checking with our On Scene Coordinator (OSC), Ralph Dollhopf. If he is available, we will send you a conference bridge (call in number). Thank you for getting back to me so quickly. Have good evening. Nola

I spoke to Bob, 2:30 on Thursday would work for us if you still need the conference call. I have attached the letter I sent to you as well as the bid from Marine Pollution. Bob said they were on site today and have already started their work. I don't have conference call capabilities (or if I do, don't know how to use them!) so can you initiate the call. I think you have both phone numbers.
