In _____ Out _____ File _____

Date 3/26/85 Time AM + P.M Routing _____

Person Contacted Robert Wise Phone No. 140 565-~~2407~~ 7854

Location Pratt + Whitney

Subject Letter 3/8

Summary In reviewing their request I have a couple of questions:

① What were they doing w/sludge previously

② TOI - NPDES - permit req'd - not before.

He thinks. - No ~~tak~~ plating taking ~~pl~~ previous

He thinks - new NPDES discharge - knows that it is permit-by-rule but state hasn't granted that exemption ∴ he added it to permit. - Told him that he hadn't demonstrated need for change + not reconstruction per 40 CFR. 122.23

He said he'd get back to me this afternoon.

- Modification of NPDES to existing permit. Add discharge 003 - 65 (10^3) gpd (prev 1M gpd)

New installation of plating operations - treatment in tanks - not requesting additional storage capacity but storage in tanks + treatment in tanks. Not req. by us but by the State - just letting us know.

Action Required

No action - will submit new correct revisions just file
